SERVICE & INSTALLATION

Stanley Access Technologies designs, manufactures and markets automatic door systems worldwide. For more than 65 years, we have set the global standard for smooth, quiet operation, user safety, design flexibility, quality, reliability and ease of installation. Our service force is North America's largest and most comprehensive network devoted to the installation and maintenance of automatic door systems. This network combines the global resources of Stanley with the unmatched customer responsiveness of local organizations to ensure every door we sell and install provides our customers with worry-free operation.

Accessibility For All

THE ACCESSIBILITY SOLUTION FOR LONG TERM CARE CENTERS, REHABILITATION & HEALTH FACILITIES

THE ACCESSIBILITY SOLUTION FOR LONG TERM CARE CENTERS, REHABILITATION & HEALTH FACILITIES

LONG TERM CARE CENTERS

REHABILITATION FACILITIES

HEALTH FACILITIES

PROVIDE GREATER SAFETY, SECURITY, COMFORT, CONVENIENCE, AND INDEPENDENCE FOR ALL.

Stanley Access Pro provides door automation to new or existing manual doors while providing additional security for the elderly by automatically unlocking, opening, closing and then relocking their doors behind them.

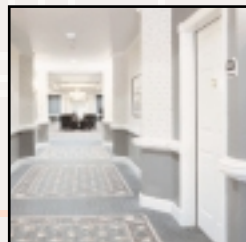

Stanley Access Pro enhances the quality of life and provides safe and independent living.

A cost-effective approach for Long Term Care Centers, Rehabilitation & Health Facilities looking to increase revenue streams by marketing accessibility for all.

The system applies to new or existing manual doors and controls opening, closing and locking. Keyed access and manual operation remains intact. This operator is easy to install; powered by a standard 120V AC adapter, it includes an electric strike locking device and remote control key fob actuator.

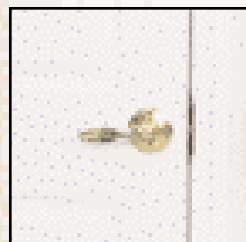

- Increases resident safety by easing accessibility.
- Generates additional revenue per room.
- Saves money by increasing staff productivity.

- Generates Revenue - Very short return on investment. Ask a Representative how the Stanley Access Pro can help you generate revenue.

- Keyless Entry - Unlocks then opens the door remotely. A velcro strap is included for attachment to walkers and wheelchairs.

- Maximize security through automatic locking with the included Stanley Electric Strike Locking Device.

A BETTER WAY OF LIVING
Stanley Access Pro is an automatic door system that can easily help residents in Long-Term Care Facilities. Many residents have difficulty maneuvering in and out of their suites—they may be confined to a wheelchair, use a walker, or have a physical handicap. Stanley Access Pro gives residents back their freedom and independence. With a press of a button they can easily exit and enter their suites, giving them the confidence and ability to attend activities and social functions.

SAFETY

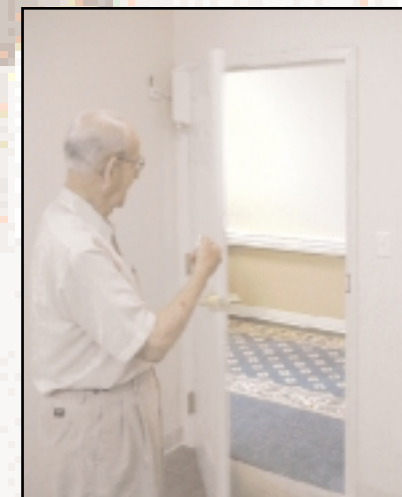

Stanley Access Pro makes it safer for residents and staff in the event of a fire or emergency evacuation. Residents simply press a button to exit their suites and staff members can assist residents to safety faster.

Stanley Access Pro System includes:

- Motor/gearbox attached to mounting bracket
- Door arm assembly with patented slider bracket
- Microprocessor Controller
- Plug-In 110V AC Power Adapter Transformer
- Key FOB Transmitter with Velcro strap
- Electric Strike assembly and wiring
- Door Operator assembly cover
- Emergency disconnect handle
- Junction box with advanced radio frequency (rf) module

CODE COMPLIANCE: UL 325, cUL, CFA-Iectrical, FCC, Aging Award
