

STANLEY

Security Solutions

Stanley Access Technologies

Security Enhancement Options

- Armored Strike Retrofit Kit with 8-ply laminated stainless steel bolt assures maximum resistance to forced entry attempts
- Durable 16-gauge stainless steel Lock Guard wrap adds rigid reinforcement to lead stiles
- Security Strobe utilizes registered CometFlash® 75 pattern for alternating left-right visual deterrent
- Combine all three for enhanced off-hours security

Armored Strike Retrofit

Use alone or with all three options

Lock Guard

For use with Armored Strike Retrofit Kit

Security Strobe

Use alone or with all three other options

Innovative Security Solutions When Customers Need it Most

- When engaged, stainless steel hook-shape deadbolt prevents sliding motion of door panels
- Lock Guard's tamper-resistant hardware and 16 gauge stainless steel wrap offers robust security at the door
- Compact professional grade Security Strobe works with exterior motion sensor when energized

Stanley Access Technologies - safe, cost effective, and durable solutions customized for every application.
