Quick Start Owner’s Manual

Refer to the complete ECO Pro Advanced Owner’s Manual for additional device capabilities and options.

The **LCD HOME SCREEN** displays the operating mode, alerts, instructions to correct alerts, and service contact information as necessary.

A flashing **RED LIGHT** indicates the door is not functioning properly.

Use **UP** or **DOWN ARROW keys** to select desired operating mode.

A steady **GREEN LIGHT** indicates the door is functioning properly.

Press **MENU* to return to previous screen. Use **MENU to access additional capabilities and options.**

* **MUST BE HELD FOR 2 SECONDS TO ACTIVATE.**

To correct alerts, press **SELECT** and advance through the suggested instructions. **When complete, look for the steady GREEN LIGHT and for the LCD HOME SCREEN to return to desired operating mode.**

3. How to Create and Edit Schedules and Enable Scheduling Option

Program the operating mode of the door with ECO Pro scheduling. Set a day of the week and time of day to initiate the desired operating mode of the door.

**Note:**
1. Ensure all days of the week and times of day have assigned operating modes.
2. In the event of overlap, ECO Pro will recognize the most recent operating mode assignment.

4. How to Resolve Door Issues
ECO Pro displays “Alert” when the door is not functioning properly. This is most commonly associated with an operating impairment such as a breakout, obstruction, or a sensor holding the door open. However, the door function could be something more serious and may require a service call. The ECO Pro diagnostics function is designed to help troubleshoot the impairment and determine if a service call may be necessary.

**Note:**
When an issue is detected, the ECO Pro will flash a red light, the screen will read the current operating mode, and the word “Alert” will appear.

<table>
<thead>
<tr>
<th>Screen Reads</th>
<th>Step 1</th>
<th>Step 2</th>
<th>Step 3</th>
<th>Step 4</th>
</tr>
</thead>
<tbody>
<tr>
<td>(“Door Operating Mode”) Alert</td>
<td>Press SELECT and advance through suggested instructions</td>
<td>Allow door to cycle</td>
<td>Look for the steady GREEN LIGHT and for the LCD SCREEN to return to desired operating mode</td>
<td></td>
</tr>
</tbody>
</table>

**Potential Alerts:** Breakout, Sensor Error, Door Held Open, Obstruction

*For more detailed information on the door system, refer to applicable Stanley Access Technologies Owner’s Manual.*

**REMINDER:**
If the issue is not resolvable by on site staff, call your local service technician or Stanley Access Technologies at 1-888-DOOR-444.

5. How to Display Door Error History
If the door system experienced any errors, ECO Pro diagnostics will retrieve the last known errors, including date and number of occurrences.

**Note:**
A more detailed software-derived diagnosis will be available to a service technician.

### Function

**Display Door Error History**
- From Home Screen, press MENU button and SELECT “Diagnostics”
- SELECT “Error History” and your ECO Pro will retrieve the last errors, and date of last errors
- Press SELECT to advance through date & time of error, type of error and number of occurrences
- Press MENU button twice or after a time delay, ECO Pro will automatically return to Home Screen

**Cycle through the entire door error history until no more errors are displayed**

### 6. How to Display Door and Maintenance Details and Service Support Contact Info

<table>
<thead>
<tr>
<th>Function</th>
<th>About</th>
<th>Step 1</th>
<th>Step 2</th>
<th>Step 3</th>
<th>Step 4</th>
<th>Step 5</th>
</tr>
</thead>
<tbody>
<tr>
<td>Display Door Details</td>
<td>Displays the Door ID number &amp; number of complete door cycles</td>
<td>From Home Screen, press MENU button</td>
<td>SELECT “Door Details”</td>
<td>See “Door ID” and Number of Cycles</td>
<td>Press MENU button or after a time delay, ECO Pro will automatically return to Home Screen</td>
<td></td>
</tr>
<tr>
<td>Display Service Support Contact</td>
<td>ECO Pro displays a service contact telephone number</td>
<td>From the Home Screen, press MENU button</td>
<td>SELECT “Service Contact”</td>
<td>LCD Screen will display: 1-888-DOOR-444</td>
<td>Press MENU button or after a time delay, ECO Pro will automatically return to Home Screen</td>
<td></td>
</tr>
<tr>
<td>Door Maintenance Details</td>
<td>Displays the installed on and last service dates</td>
<td>From the Home Screen, press MENU button</td>
<td>SELECT “Maintenance”</td>
<td>LCD Screen will display “Installed on” date</td>
<td>Press MENU button or after a time delay, ECO Pro will automatically return to Home Screen</td>
<td></td>
</tr>
</tbody>
</table>

7. How to Set Traffic Sense Option

If Traffic Sense is enabled, ECO Pro works with your door system sensors to adjust the door opening. Only a service technician enables traffic sense. Choose the setting by following the steps, below.

**Note:**

1. The default setting for Traffic Sense is “OFF.”
2. ECO Pro will not adjust the door opening unless the door operating mode is set to “Reduced.”

<table>
<thead>
<tr>
<th>Function</th>
<th>Step 1</th>
<th>Step 2</th>
<th>Step 3</th>
<th>Step 4</th>
</tr>
</thead>
<tbody>
<tr>
<td>Traffic Sense</td>
<td>From Home Screen, press MENU</td>
<td>SELECT “Traffic Sense”</td>
<td>Arrow to desired traffic sense setting:</td>
<td>Press MENU button or after a time delay, ECO Pro will automatically return to Home Screen</td>
</tr>
<tr>
<td>Setting</td>
<td>button</td>
<td></td>
<td>Off, Low, Medium, High (see reference chart, below)</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>Press SELECT</td>
<td></td>
</tr>
</tbody>
</table>

**Setting**

<table>
<thead>
<tr>
<th>Description</th>
<th>Ideal For</th>
</tr>
</thead>
<tbody>
<tr>
<td>LOW Door system automatically changes from “Reduced” to “Automatic” when the traffic level INCREASES over a LOW level of traffic. It will automatically return to “Reduced” when traffic returns to a LOW level of traffic.</td>
<td>This setting is ideal for low-traffic locations.</td>
</tr>
<tr>
<td>HIGH Door system automatically changes from “Reduced” to “Automatic” when the traffic level INCREASES to a HIGH level of traffic. It will automatically return to “Reduced” when traffic returns to below a HIGH level of traffic.</td>
<td>This setting is ideal for high-traffic locations.</td>
</tr>
</tbody>
</table>

8. How to Lock the Menu Controls and Operating Mode Controls

Create 4-button key sequences to lock and unlock the “Menu” and “Mode” controls.

Lock the “Menu” Controls to secure schedules and scheduling options, date & time, and key configuration. Use the “Menu Key” to unlock the “Menu” Controls.

Lock the Operating “Mode” Controls to secure the operating mode. Unlock the Operating “Mode” Control with the “Mode Key.”

**Note:**

1. For security purposes, only a Stanley Service Technician can re-set the Menu and Mode keys in the event of lost and/or forgotten key sequence.
2. The ▲ icons will no longer appear when the ECO Pro is locked.

<table>
<thead>
<tr>
<th>Function</th>
<th>Step 1</th>
<th>Step 2</th>
<th>Step 3</th>
<th>Step 4</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lock the Menu</td>
<td>From the Home Screen, ARROW to</td>
<td>SELECT “Set Menu Key”</td>
<td>Using any of the four buttons on the ECO Pro, create a 4-button key sequence</td>
<td>See “Menu Key Saved” on the LCD Screen. Record Key on page 2 of this guide. EX:</td>
</tr>
<tr>
<td>controls</td>
<td>“Configure Keys” Press SELECT</td>
<td></td>
<td>EX: ARROW UP (1), MENU (2), ARROW DOWN (3), SELECT (4)</td>
<td></td>
</tr>
</tbody>
</table>

| Lock the Operating | From the Home Screen, ARROW to   | SELECT “Set Mode Key” | Using any of the four buttons on the ECO Pro, create a 4-button key sequence | See “Mode Key Saved” on the LCD Screen. Record Key on page 2 of this guide. EX: |
| Mode controls      | “Configure Keys” Press SELECT    |                       | EX: MENU (1), SELECT (2), ARROW DOWN (3), ARROW UP (4) |                                             |

Delete and Edit Menu and/or Mode Keys

<table>
<thead>
<tr>
<th>Function</th>
<th>Step 1</th>
<th>Step 2</th>
<th>Step 3</th>
<th>Step 4</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>From the Home Screen, ARROW to</td>
<td>SELECT “Erase Mode Key” and/or “Erase Menu Key”</td>
<td>See “Mode Key Erased” and/or “Menu Key Erased”</td>
<td></td>
</tr>
<tr>
<td></td>
<td>“Configure Keys” Press SELECT</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

To Edit Menu Key: Follow “Lock the Menu controls” instructions, above
To Edit Mode Key: Follow “Lock the Operating Mode controls” instructions, above

1. To edit Menu and or Mode Keys, the original key sequence must first be Deleted (“Erased”)
2. After a time delay, ECO Pro will automatically return to Home Screen
