THE STANLEY DIFFERENCE

We are reliable to our core because you depend on us.

Even though we already have the largest geographic footprint in North America, we are continuously expanding our team of R&D and innovation engineers, sales representatives and service and install technicians. This paired with being the only manufacturer with 2 US factories means you can trust us to get what you need, how you need it and when you need it.

We never cut corners when it comes to safety and conformance.

Excellence is equated to making it right the first time, because we know every expertly crafted product we make needs to help you do better, safer, more significant work. Our unwavering mission to adhere to the highest standards of material, workmanship and service since we invented the first swinging automatic door over 80 years ago is the reason we continue to be the industry leader.

Experience and dedication to take you from where you are to where you want to go.

Our job is to help you do yours better, and we take pride in what you make possible. So you get consistency that meets your complete satisfaction, our products are only sold by, shipped by, handled by and installed by dedicated STANLEY employees and partners. Their experience with product solutions, codes and standards, and the industry runs deep; with an average of 12 years for our technicians and 13 years for our sales representatives.

We are a Purpose-driven organization. This is what binds us and drives us to do the impossible. Together, we can Make The World Accessible.
DOORS ARE NOT YOUR MOST CRITICAL PIECE OF HEALTHCARE EQUIPMENT. BUT WE BUILD THEM AS IF THEY WERE.

As a service customer, you will receive the expertise of the industry’s largest and most experienced automatic door service provider in North America. You can be assured your equipment is kept in top operating condition, planned maintenance is completed as required, parts replacement meet manufacturer's specification, and all activity is appropriately documented thereby minimizing your liability exposure.

THE NEW PROCARE 8300
The industry’s only human-centric ICU door deliberately designed with respect for patients and caregivers in sensitive healthcare environments.
Eliminate dangerous snagging of IV lines and equipment with our catch-free contoured handle and retractable positive latch hook shield.

Promote Healing

Easy and more controlled swing out and return with our new instant swing out button.

Quiet and flawless operation every time with our swing out guidance system. No panel sag during swing out.

Add touch-less activation for infection control.

Easily switches to manual slide mode, giving nurses control over the door opening after they leave the room so they can better monitor patients. Exclusive Power Assist Technology makes sliding 3x easier.
MODELS:

**ProCare 8300**: Base Model, 2-panel manual sliding door with full swing out at full open.

**ProCare 8300A Automatic**: 2-panel automatic sliding door with full swing out at full open. Jamb mounted touch-less wave activation and overhead safety sensors, meeting ANSI/BHMA A156.10.

RATINGS*:

**Smoke & Draft**: Leakage rated under ANSI/UL1784 and labeled as a smoke barrier
   - Smoke and Draft Seals
   - Positive Latching (Electric Strike on 8300A)
   - Identifiable Sticker For Rapid Commissioning

**Infection Control**: Leakage rated, in compliance with 2014 FGI guidelines for pressurized Airborne Isolation Infection Control Rooms
   - Concealed Bottom Sweeps
   - Perimeter Seals
   - Self-Closing

**STC Rated**: Extra seals and special glass to reduce noise transmission
   - Concealed Bottom Sweeps
   - Glass Stops For Recommended STC Rated Glass
   - Identifiable Sticker For Rapid Commissioning
